"A SAFE PLACE TO TRADE"

CORN SHIPMENTS HEAVY. AROUND \$5,000 PER DAY.

Corn shipments from Hickman during the past two weeks have been above "the season's average." Several buyers and a number of heats engaged in this trade, have been basily engaged in handling this grain from Missouri and Kentucky river points for weeks, but thousands of bushels are yet to be brought in.

On barges at the river front Monday morning there were something in excess of 11,000 bushels, rendy for transfer to the eurs; most of which goes to Nashville and eastern markets. Henry McMullin, one of the local buyers, informs us that they are paying the farmers 65c a lushel and that daily transactions represent an ontlay of something like \$5000

The greatest drawback to the local corn business is lack of proper facilities from getting the grain from the barges to the The N. C. & St. L. Ry. Co, has agood elevator here, now practically "inland," because the river has filled in in front of it since its erection, but it's no earthly good so far as its purpose is concerned. If this building could -nnd it could-be moved to a suitable point up nearer town, it would be a great advantage to grain shippers; greatly reducing the cost of handling annually more than 250 cars of river corn. The cost, lack of labor and time lost in the present crude method would justify our shippers in appealing to the railroad for re-

MOORE FOUND GUILTY.

Fate Moore was, on last Frilay, tried for perjury before W. C. Morris Esq.

Moore was prosecuted for perjury because statements that he builde under oath before the grand jury wholly conflicted with statepicits that he made under oath as a witness in circuit court. Before the grand jury, he said that Monk Palmer took the dollar that he gave him (Palmer) and went away and presently returned with a pint of liquor. In circuit court when on the witness stand, he swore that he did give Monk dollar but Monk did not return with liquor or anything else and still had his dollar. The prosecution proved by the members of the grand jury what Moore swore to before the grand jury and they proved by Enloe Caldwell, A. M. Unimpbell and H. M. Golden what he swore to in circuit court. It looks very much like Moore will be convicted. The penulty, if convicted, is from 3 to 15 years in the penitentiary. He was placed under a \$1000 band.—Paion City News-Banner.

WILL THERE BE ANY MORE FEBRUARY 29?

If the calendar reformers, who abound in every civilized land, have their way, the good old custom of injecting a day into the calendar now and then to make up for discrepencies, and labeling it "February 29," will be abandoned following the settlement of the European war.

When the big war broke ant an International Congress to revise the calendar had just been called. Many proposals had been just made along the line of ealendar reform, and several of the larger European governments approved some of the schemes for simplying the methods of reckoning days and months.

If the calendar is altered, and attention is sure to center upon it after the details of war settlement are adjusted, it is almost certain that the years will be divided into thirteen months, of four weeks each. The odd days will be tacked on at the end, it is believed, to form some sort of a world holiday.

There are many objections to the present plan of some months HICKMAN'S CHAUTAUQUA containing thirty days, others PROBABLY MAY 15th. thirty-one, and one fluctuating. While this arrangement, which ame down through the centuries, has supplied us with ealendars that are fairly accurate, the needs of the peoples of all countries have not been met. Some countrics never adopted the new style of Pope Gregory, the Mohammedans, having clung to their own calendar, the Hebrews to their method of figuring the years and there is a wide variation among these various tables of

Cream of tartar, derived from grapes, is used in Royal Baking Powder because it is the best and most healthful ingredient known for the purpose.

Phosphate and alum, which are derived from mineral sources, are used in some baking powders, instead of cream of tartar, because they are cheaper.

If you have been induced to use baking powders made from alum or phosphate, use Royal Baking Powder instead. You will be pleased with the results and the difference in the quality of the food.

Even King was impressed by the absolute fairness of the proposition. These properties, as Mr. Ithithers was by way of knowing, were absolutely sound and self supporting.

Goldn inquired whether he was to come to New York at once in relation to the matter and was informed that it would not be necessary at present. Mr Blitbers, however, would give himself the pleasure of calling upon the prince at Red Goof later in the week. when the situation could be discussed over a dish of ten or a cup of lemonude. In order to get on with the narrative. I shall be as brief as possible in the matter of the Hiltherwood ball. In the tirst place, mere words would provo to be not only feeble, but actually out of idace. Any attempt to define the sensation of awe by recourse to a dictionary would put one in the ridiculous position of seeking the unattainable. The word has Ita meaning, of course, but the sensation Itself in quite another thing. As every one who attended the ball was filled with awe, which he tried to put forward as admiration, the attitude of the guest was no more imp than that of the chronicler. In the second place, I am not qualified by experience or imagination to describe a ball that stood its promoter not a penny ahort of one hundred thousand dollars. I believe I could go as high as a fifteen or even twenty thousand dollar affair with some sort of intelligence, but anything beyond those fig-

ures renders me void and uscless. Mr. Blithers not only ran a special train de luxe from New York city. but another from Washington and HICKMAN ELECTRICAL REPAIR CO. still another from Newport, for it apmeans that the Newporters at the last

From Washington came an amazing company of foreign ladies and gentlemen, ranging from the most exalted Europeans to the lawliest of the yellow races. They came with gold ail over them; they tinkled with the clash of a million cymbals. The president of the United States almost came. In order to deliver his guests at the doors of Biltherwood, so to speak, the incomprehensible Mr. illithers had a temporary spur of track laid from the station two miles away, employing no fewer than a thousand men to do the work in forty-eight hours. Work on a terminal extension in New York was delayed for a week or more in order that he might borrow the rails, ties and work trains.

Two hundred and fifty precious and skillfully selected guesta ate two hundred and fifty gargantuan dinners and twice as many suppers; drank barrels of the rarest of wines; smoked countless two dollar perfectos and stuffed their pockets with enough to last there for day to come.

How To Choose Your Drug Store

Select your drug store with the care that you select your doctor.

Choose that drug store that puts every transaction between itself and its enstomers on a service basis, Trade at the drug store that pays more attention to

making a customer than to making a sale,

Trade at the drug store where you can be sure that Trade at the drug store where you can "feel at home." Where you can feel at liberty to make use of all the rees a real drug store peculiarly has for your help, Charmence and accommodations.

It is this kind of a drug store that we take pride in const. You know a drug store is different from a and tore, a hardware store or any other kind of a store, I to relations between a druggist and ins customers or min to those between a ductor and his patients.

GUN-PLAY IN HOUSE OVER LIQUOR BILL.

Gnaplay marked proceedings of the Kentucky House of Representatives Momlay afternoon, and but for the intervention of some of the cooler heads there probably would have been bloodshed

The trouble started over an attempt to call out, over the protest of the House Bules Comunttee, the bill of Senator B. M. Taylor, of Green county, limiting shipments of lignor into dry territory. The situation reached the chmax when B. S. Williams, ex centive Marshal, attempted to force the Bev. W. B. Harvey Representative of Webster conn ty, into his seat. When the lat ter resisted Williams drew from his inside pocket of his cont a holster containing a long revol ver, but before he could extra the wenpon he was taken in charge by persons in the numer diate vicinity and persuaded to wive the dinmber.

Congratulations.

Every time we read of the ourning of a school building, with the usual appalling loss of life. we are reminded of what Maj. Tyson, the noted fire chief, said of Hickman's high school, when he was here last fall and made a survey of local conditions. He said that if he lived in Hickman, his children would go without an education rather than attend our college with its fire risk. This warning, coming from such noted and recognized authority, should carry weight with our citizens and board of directors. Statistics show that an average of twelve schools burn each year in the United States. Where will the next disasterous school fire ocenry Where least expected, of coarse; and that may be right here. If we cannot afford proper fire protection for our school chibbren, we can at least have regular fire drills; and this, acpording to statisties, saves many ives each year. Would it not be wise for the Board of Faculty to give the drill question, at least, consideration? "An ounce of prevention is worth a pound of enre."

The Social Embroidery Club hebl a delightful meeting with Mrs. Pat Freeman on Monday afbernoon. After a brief business session, reading by Mrs. W. E. Caldwell was enjoyed, after which the hours were spent in sewing and erocheting. At the closing hour refreshments were served. The club meets with Mrs. Will Hammond on Monday, March 20.

The city authorities should put a stop to people hitching horses to the telephone pole at the rear of the new Dodds building, opposite the Courier office. pole is liable to scap off; and folks are compelled to get off the crossing and walk around in and because horses staid on the widk nearly all day long
